2. INFORMATION WE COLLECT THROUGH AUTOMATED MEANS

When you use our Services, we collect certain information as described in this Section. As discussed further below, we and our service providers (which are third party companies that work on our behalf) may use a variety of technologies, including cookies and similar tools, to assist in collecting this information.

Websites

We partnered with Microsoft Clarity and Microsoft advertising to improve and

market our products. When you use our website, we collect and analyze information such as your IP address, browser types, browser language, operating system, software and hardware attributes (including device IDs) referring and exit pages and URLs, the number of clicks, pages viewed and the order of those pages, date and time of use, content watched, total minutes watched, error logs, and other similar information about how you use the website.

Additionally, we use this information for site optimization, fraud/security purposes, and advertising. For more information about how Microsoft collects and uses your data, visit the [Microsoft Privacy Statement](#)

Mobile Applications

When you use a Million Dollar Sellers mobile application or software ("app"), we automatically receive certain information about the mobile phone, tablet, or computer used to access the app, including device identifiers, IP address, operating system, version, Internet service provider, browser type, domain name and other similar information, whether and when you update the app, date and time of use, content watched, total minutes watched, error logs, and other similar information about how you use the app.

Location Information

When you use the Services, we and our service providers may automatically collect general location information (e.g., IP address, city/state and/or postal code associated with an IP address, city/state) from your computer or mobile device.

3. INFORMATION WE COLLECT FROM SOCIAL MEDIA AND OTHER CONTENT PLATFORMS

If you access the Services through a third-party connection or log-in (e.g., through a social network like Facebook or Twitter), you may allow us to have access to and store certain information from your social network profile. This can include your name, gender, profile picture, your "likes" and check-ins, and your list of friends, depending on your settings on such services. If you do not wish to have this information disclosed, do not use a social networking connection to access the Services. For a description of how social networking sites handle your information, please refer to their privacy policies and terms of use, which may permit you to modify your privacy settings. You may also have the option of posting your Services activities to Social Networking Services when you access content through the Services (for example, you may post to Facebook that you enrolled in a class on the Service); you acknowledge that if you choose to use this feature, your friends, followers and subscribers on any Social

Networking Services you have enabled will be able to view such activity.

4. INFORMATION WE COLLECT FROM OTHERS

We may receive additional information such as demographic and statistical information from third parties, such as business partners, marketers, researchers, analysts, and other parties that we may attribute to you based on your assignment to certain statistical groups. We use this information to supplement the information that we collect directly from you in order to derive your possible interests and to provide more relevant experiences for you and improve our products, analytics, and advertising.

5. INFORMATION FROM MDS COMMUNITY SPACES AND THE MDS ASSISTANT

Community content. When you participate in MDS community spaces — including MDS WhatsApp groups, the MDS Facebook group, MDS events, and the MDS app — we collect and store the content you post there: messages, posts, comments, images, and event registrations. This content is retained in our systems to power member services, including search, digests, and the MDS Assistant.

Assistant conversations. When you message the MDS Assistant, we collect and store the full conversation — your messages, the Assistant's replies, delivery status, and your feedback reactions.

Usage and activity data. We collect information about how you use MDS services — such as portal logins, pages viewed, features used, event registrations, and interactions with the Assistant — associated with your member record.

Derived information. We generate information from the data above, such as engagement measures, areas of expertise, topic interests, and connections to other members (for example, shared events or group participation), used to improve recommendations and member matching.

How We Use Your Information

We, or our service providers, use your information for various purposes depending on the types of information we have collected from and about you, in order to:

Combined Information

For the purposes discussed in this Privacy Policy, we may combine the information that we collect through the Services with information that we receive from other sources, both online and offline, and use such combined information in accordance with this Privacy Policy.

Aggregate/Anonymous Data

We may aggregate and/or anonymize any information collected through the Services so that such information can no longer be linked to you or your device. We may use such information for any purpose, including without limitation for research and marketing purposes, and may also disclose such data to any third parties, including advertisers, promotional partners, and sponsors.

Data Sharing Disclaimer

All the above Data Sharing categories exclude text messaging originator opt-in

data and consent; this information will not be shared with any third parties, excluding aggregators and providers of the Text Message services.

AI-Assisted Services

MDS uses artificial-intelligence technology to provide member services, including the MDS Assistant. When you use these services, or when your community content is processed to power them:

- Your messages to the Assistant, and relevant member and community content, are processed by third-party AI service providers acting on our behalf. These providers are contractually limited to processing the data to provide the service to us, and do not use your data to train their AI models.
- AI-generated responses may be inaccurate. The Assistant's answers are informational and are not professional, financial, or legal advice.
- We use automated processing to personalize what the Assistant and MDS services show you (for example, recommending members, events, or content). We do not use automated processing to make decisions with legal or similarly significant effects about you.
- Community content you have shared in member spaces (for example, posts in the MDS Facebook group or messages in MDS WhatsApp groups) may be surfaced to other members through the Assistant, consistent with the visibility of the space where you shared it. Content from a group you are in is never shown to members outside that group.

SMS Program

Million Dollar Sellers is committed to protecting your privacy. This policy applies to information collected via our SMS communication program.

No Mobile Information Sharing for Marketing Purposes

No mobile information will be shared with third parties or affiliates for marketing or promotional purposes.

Text Messaging Data and Consent

Text messaging originator opt-in data and consent will not be shared with any third parties, except for aggregators and providers of the text message services.

Data Sharing Disclaimer

All the above Data Sharing categories exclude text messaging originator opt-in data and consent; this information will not be shared with any third parties, excluding aggregators and providers of the Text Message services.

Permitted Data Use

Information sharing is only permitted with subcontractors in support roles such as customer service. No lead or mobile information is ever sold or disclosed for third-party marketing.

Removal of Certain Terms

Our policy explicitly avoids terms such as "share," "sell," "affiliate," or "third-party" in ways that imply distribution of leads' information without consent.

Cookies and Similar Technologies

To collect the information in the "Information We Collect Through Automated Means" section above, we and our service providers use Internet server logs, cookies, tracking pixels, and other similar tracking technologies. We use these technologies in order to offer you a more tailored experience in the future, by understanding and remembering your particular browsing preferences. Cookies are small text files that are placed on your computer or mobile device when you visit a site that enable us to: (i) recognize your computer; (ii) store your preferences and settings; (iii) understand the web pages of the Services you have visited; (iv) enhance your user experience by delivering and measuring the effectiveness of content and advertising tailored to your interests; (v) perform searches and analytics; and (vi) assist with security and administrative functions. Some cookies are placed in your browser cache while those associated with Flash technologies are stored with your Adobe Flash Player files. As we adopt additional technologies, we may also gather information through other methods. Please note that you can change your settings to notify you when a cookie is being set or updated or to block cookies altogether. Please consult the "Help" section of your browser for more information (e.g., Internet Explorer; Google Chrome; Mozilla Firefox; or Apple Safari). You can also manage the use of Flash technologies, including flash cookies and local storage objects, with the Flash management tools available at Adobe's website. Please note that by blocking, disabling, or managing any or all cookies, you may not have access to certain features or offerings of the Services. For more information about our use of cookies, please contact appsupport@milliondollarsellers.com.

Online Analytics and Advertising

1. Analytics

We may use third-party web analytics services (such as those of Google Analytics) on our Services to collect and analyze usage information through cookies and similar tools; engage in auditing, research, or reporting; assist with fraud prevention; and provide certain features to you. To prevent Google

Analytics from using your information for analytics, you may install the Google Analytics Opt-out Browser Add-on by clicking [here](#).

If you receive email from us, we may use certain analytics tools, such as clear GIFs to capture data such as when you open our message or click on any links or banners our email contains. This data allows us to gauge the effectiveness of our communications and marketing campaigns.

2. Online Advertising

The Services may integrate third-party advertising technologies that allow for the delivery of relevant content and advertising on the Services, as well as on other websites you visit and other applications you use. The ads may be based on various factors such as the content of the page you are visiting, information you enter such as your age and gender, your searches, demographic data, user-generated content, and other information we collect from you. These ads may be based on your current activity or your activity over time and across other websites and online services and may be tailored to your interests.

Third parties may also place cookies or other tracking technologies on your computer, mobile phone, or other device to collect information about you as discussed above, including your email address. These third parties (e.g., ad networks and ad servers such as Google, DoubleClick, Meta, and others) may also serve tailored ads to you as you use the Internet and Internet-connected applications, and access their own cookies or other tracking technologies on your computer, mobile phone, or other device you use to access the Services to assist in this activity.

We neither have access to, nor does this Privacy Policy govern, the use of cookies or other tracking technologies that may be placed on your device you use to access the Services by such non-affiliated third parties. If you are interested in more information about tailored browser advertising and how you can generally control cookies from being put on your computer to deliver tailored advertising, you may visit the Network Advertising Initiative's Consumer Opt-Out link, the Digital Advertising Alliance's Consumer Opt-Out link, or Your Online Choices to opt-out of receiving tailored advertising from companies that participate in those programs. To opt out of Google Analytics for display advertising or customize Google display network ads, visit the Google Ads Settings page. We do not control these opt-out links or whether any particular company chooses to participate in these opt-out programs. We are not responsible for any choices you make using these mechanisms or the continued availability or accuracy of these mechanisms. For additional ways to opt out of targeted advertising activities under applicable law, see the "Your Rights and Choices" section below.

Please note that if you exercise the choices above, you will still see advertising when you use the Services, but it will not be tailored to you based on your online behavior over time.

3. Notice Concerning Do Not Track

Do Not Track (“DNT”) is a privacy preference that users can set in certain web browsers. We are committed to providing you with meaningful choices about the information collected on our website for third party purposes, and that is why we provide the variety of opt-out mechanisms listed above. However, we do not currently recognize or respond to browser-initiated DNT signals. To learn more about Do Not Track, you can do so [here](#). Please note that Do Not Track is a different privacy mechanism than the user “preference signal” referenced in the “Your Rights and Choices” section below, which is a browser-based control that indicates whether you would like to opt out of processing of your information for certain purposes, such as the “sale” of your information or the disclosure of your information for targeted advertising purposes, under applicable laws.

How We Disclose Your Information

Million Dollar Sellers will disclose your information in the following ways:

Service Providers

We provide access to or disclose your information to select third parties who perform services on our behalf. They have access to perform these services but are prohibited from using your information for other purposes. They provide a variety of services to us, including billing, sales, marketing, product content and features, advertising, analytics, research, customer service, data storage and hosting, artificial-intelligence services, workflow automation, messaging platforms, security, fraud prevention, payment processing, and legal services. Messages you exchange with the MDS Assistant on WhatsApp are also subject to WhatsApp's own terms and privacy policy.

Protection of Million Dollar Sellers and Others

By using the Services, you acknowledge and agree that we may access, retain and disclose the information we collect and maintain about you if required to do so by law or in a good faith belief that such access, retention or disclosure is reasonably necessary to: (a) comply with legal process (e.g. a subpoena or court order); (b) enforce our Terms of Service, this Privacy Policy, or other contracts with you, including investigation of potential violations thereof; (c) respond to claims that any content violates the rights of third parties; (d) respond to your requests for customer service; and/or (e) protect the rights, property or personal safety of Million Dollar Sellers, its agents and affiliates, its users and/or the

public. This includes exchanging information with other companies and organizations for fraud protection, and spam/malware prevention, and similar purposes.

Business Transfers

As we continue to develop our business, we may buy, merge, or partner with other companies. In such transactions (including in contemplation of such transactions), user information may be among the transferred assets. If a portion or all of our assets are sold or transferred to a third-party, customer information (including your email address) would likely be one of the transferred business assets. If such transfer is subject to additional mandatory restrictions under applicable laws, we will comply with such restrictions.

Public Forums

Certain features of our Services make it possible for you to post comments publicly that other users can see. Any information that you submit through such features is not confidential, and we may use it for any purpose (including in testimonials or other marketing materials). Any information you post openly in these ways will be available to the public at large and potentially accessible through third-party search engines. Accordingly, please take care when using these features.

Aggregate/Anonymous Information

From time to time, we may disclose Aggregate/Anonymous Information about use of the Services, such as by publishing a report on usage trends. The disclosure of such data is unrestricted.

Retention of Your Information

We keep your information for no longer than necessary for the purposes for which it is processed. The length of time for which we retain information depends on the purposes for which we collected and use it and/or as required to comply with applicable laws.

Assistant conversations and community content are retained indefinitely, including after your membership ends, unless you request deletion of your personal information as described in "Your Rights and Choices." Content you contributed to shared community spaces may remain part of the community record after your membership ends.

How We Protect Your Information

Million Dollar Sellers takes technical and organizational security measures to

protect the information provided via the Services from loss, misuse, and unauthorized access, disclosure, alteration, or destruction. However, no Internet or email transmission is ever fully secure or error free. Please keep this in mind when disclosing any information to Million Dollar Sellers via the Internet.

Third Party Links and Features

The Services contain links to third-party websites such as social media sites, and also contain third-party plug-ins (such as the Facebook “like” button and Twitter “follow” button). If you choose to use these sites or features, you may disclose your information not just to those third-parties, but also to their users and the public more generally depending on how their services function. We are not responsible for the content or practices of those websites or services. The collection, use, and disclosure of your information will be subject to the privacy policies of the third party websites or services, and not this Privacy Policy. We urge you to read the privacy and security policies of these third-parties.

Children's Privacy

The Services are intended for general audiences and not for children under the age of 13. If we become aware that we have inadvertently collected “personal information” (as defined by the United States Children’s Online Privacy Protection Act) from children under the age of 13 without valid parental consent, we will take reasonable steps to delete it as soon as possible. We do not knowingly process data of EU residents under the age of 16 without parental consent. If we become aware that we have collected data from an EU resident under the age of 16 without parental consent, we will take reasonable steps to delete it as soon as possible. We also comply with other age restrictions and requirements in accordance with applicable local laws.

As provided in applicable law, you also have the right to not be discriminated against for exercising your rights. We also need to take reasonable steps to verify your identity before responding to a request, which may include, at a minimum, depending on the sensitivity of the information you are requesting and the type of request you are making, verifying your name and email address. 3. Notice of Right To Opt Out Of Sales Of Personal Information

And Processing/Sharing Of Personal Information For Targeted Advertising Purposes

As explained in the “Online Analytics and Advertising” section above, we provide certain information to third-party advertising providers for targeted advertising purposes, so that we can provide you with more relevant and tailored ads regarding our services, and use analytics partners to assist us in analyzing use of our services and our user/customer base. The disclose of your information to these third parties to assist us in providing these services may be considered a “sale” of personal information under applicable law, or, the processing/sharing of your information for targeted advertising purposes.

If you would like to opt out of our online disclosure such as through cookie and pixel technology of your information for purposes that could be considered “sales” for those third parties' own commercial purposes, or “sharing” for purposes of targeted advertising, please contact us at appsupport@milliondollarsellers.com. You can also submit a sale opt-out request to opt out of our offline disclosures of information that are subject to applicable opt out rights by emailing us at appsupport@milliondollarsellers.com. Please note that we do not knowingly sell the personal information of minors under 16 years of age without legally-required affirmative authorization.

Please note that if you have a legally-recognized browser-based opt out preference signal turned on via your device browser, we recognize such preference in accordance with applicable law.

4. MDS Assistant and Community Data

You may request a copy or deletion of your Assistant conversation history and other personal information by emailing appsupport@milliondollarsellers.com. We will verify and honor verified requests within 30 days. You can stop the Assistant from messaging you at any time by replying STOP; reply START to resume.
